La collection Bompa est dérivé de notre renommée collection Moemoe. Les deux collections utilisent le même ensemble de verres. Ici aussi vous pourrez travailler avec une agréable lampe de frigo, qui crée une ambiance douce, ou avec un spot puissant et dirigé qui projette la lumière vers le bas. Cette collection peut, grâce à ses lampes murales et plafonniers sympatiques, être utilisée pour les toilettes, salles de bains, couloirs,... La collection est nommée en l'honneur du «PAPY» de notre designer / propriétaire.
